Rafael Bragança Oliveira

ETH Zürich – B. Sc. Computer Science

Zürich, Switzerland • rbranganca@gmail.com • +41 76 593 10 64 • LinkedIn • GitHub

Computer Science student with experience combining full-stack AI solutions, ML research and leadership roles in tech-focused student communities. Skilled in Python, PyTorch, RAG pipelines, and LLM-based agent systems.

Education

ETH Zurich — Zurich, Switzerland
B.Sc. in Computer Science — Sep 2023 – Feb 2027 (Expected)

Technical University of Munich (TUM) — Munich, Germany
Exchange Semester — Sep 2025 – Feb 2026

Experience

BMW Group — Zurich, Switzerland
AI Engineer, Working Student — Oct 2026 – Feb 2027

- Developing AI-powered automation systems for financial services processes in collections and recovery

GenAI Lab, Technical University of Munich (TUM) — Munich, Germany
Research Assistant, AI Engineer — Oct 2025 – Mar 2026

- Built an open-sourced project called PersonaAI, a full-stack AI content pipeline platform for social media as a practical artifact of the research.
- Facilitated complex content generation tasks into coordinated sub-agent workflows with structured state tracking across pipeline phases via Supabase and AI services APIs, reducing manual production time by 80%+

Projects

MundoAI — Independent AI Creator Project — Remote — Mundo AI
Founder & AI Content Engineer MundoAI — Independent AI Creator Project — Jul 2023 – Present

- Built and scaled a fully AI-automated content channel to 200K+ followers, 7M+ likes, and 60M+ views on TikTok, targeting Brazilian audiences interested in AI and technology
- Engineered end-to-end automation pipelines using Claude API and Claude Code for AI-generated content creation, orchestration workflows, and social media management, eliminating manual production overhead

Bachelor Thesis — ML Research — Zurich, Switzerland
ETH Zurich, DISCO Group — Mar 2026 – Sep 2026

- Developed CASCADE, a federated learning system that dynamically adapts neural architecture search to communication constraints across distributed devices, improving accuracy by up to 25% and reducing communication by up to 40% over state-of-the-art methods.
- Supervised by Prof. Roger Wattenhofer and Dr. Antonio Di Maio

Leadership

ETH Blockchain Club, ETH Zurich — Zurich, Switzerland
Board Member, Head of Marketing — Mar 2026-Present

- Spearheaded strategic event partnerships with industry leaders such as the Ethereum Foundation, Solana Foundation, ChainSecurity, and Dialectic, orchestrating high-impact initiatives that promoted technical education and career opportunities for the blockchain community

Claude Builder Club Zürich, ETH Zurich — Zurich, Switzerland
Board Member, Technical Track — Apr 2026-Present

- Coordinated event organization to grow the AI builder community at ETH Zurich in collaboration with Anthropic, connecting students with industry leaders and startup founders

BRASA Zurich, Brazilian Student Association in Zurich — Zurich, Switzerland_
Co-Founder & Board Member — Sep 2025 – Present

- Helped to grow the club to more than 100 members through social media outreach and community events

Key Skills

Languages: Portuguese (Native) • German (C1) • English (C1) • Spanish (B1)
Programming: Python (PyTorch, NumPy) • Java • C++ • C • SQL • Solidity • JavaScript • React/Next.JS
Technologies: Cursor • Claude Code • Git • GitHub • Docker • REST APIs • LLMs • Cloud and Database fundamentals • AI orchestration frameworks (n8n, LangGraph) • Smart Contracts
